

# ADDICTIVE Guitar Exercise

## Eddie Haddad

As mentioned in the video lesson, this exercise uses the B Phrygian Dominant scale.

Here is the tab of that scale played across the B string on your guitar.

Take a listen to each individual note to memorize the type of sound that this scale can give you.

### B Phrygian Dominant

Here is the tab of the exercise played on the B string. To play it on any of the other open strings, you can follow the exact same fret numbers and it'll work!
