

Fingerstyle Guitar EASY For Beginners

Eddie Haddad

Remember to use “isolations” and “assignments” when working through this piece. Those are the two pillars of effective and easy fingerpicking.

Here are diagrams of the three chords used in the piece. The numbers on the dots represent the numbered fingers you'll use to play each chord.

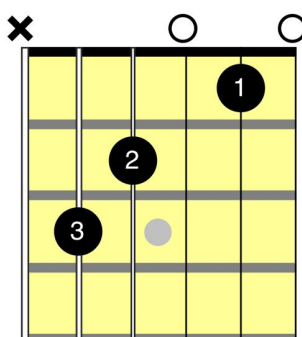

The fingers on your fretting hand are numbered like this...

Index - 1
Middle - 2
Ring - 3
Pinky - 4

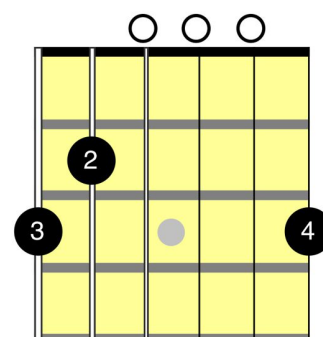

D Chord

C Chord

G Chord

And as promised, here's the tab for the "Bonus Challenge" version of the piece if you're feeling daring ;) Remember the isolations and assignments remain the same, you just alternate the order of the fingers to play through the same chords.
