

Play The Blues Scale

Eddie Haddad

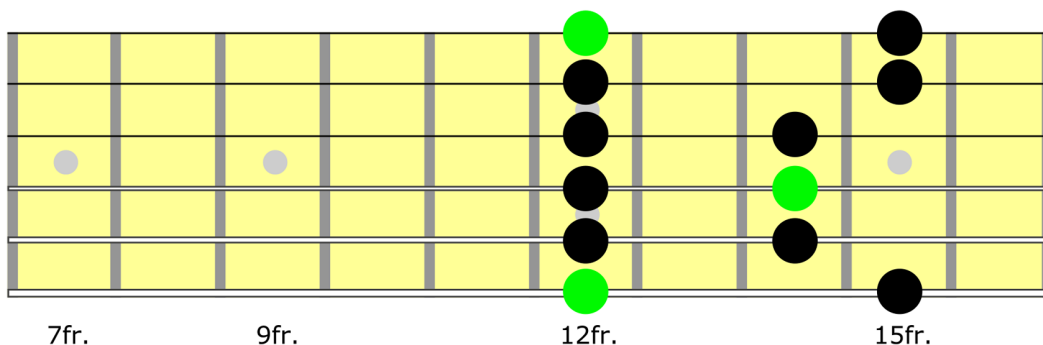

Below are diagrams of both the Major and minor pentatonic scales, as well as a diagram of what both scales look like “stacked” on top of each other.

The green dots indicate the root notes. Since we’re in the key of E, each of those green dots represents an “E” note on your fretboard.

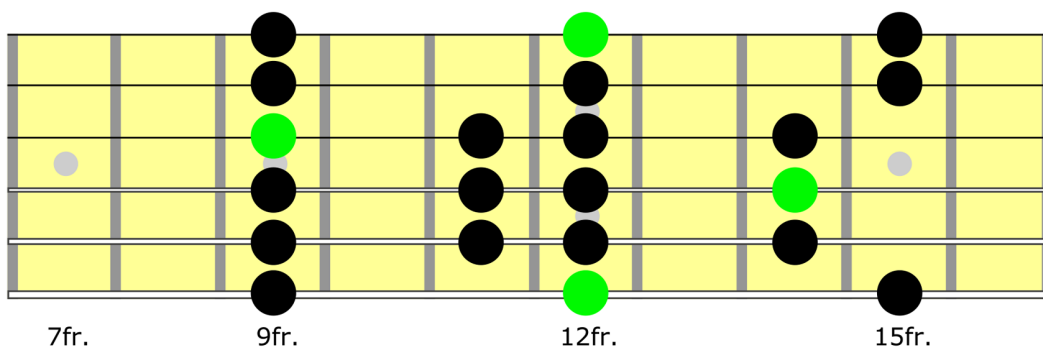

E Major Pentatonic Scale

E minor Pentatonic Scale

Both scales overlapped

Start with a handful of notes to build musical ideas with, then start adding additional notes when you feel ready to. Most importantly, have lots and lots of fun!
